The Professional Leadership Network is an exclusive group of professionals that are engaged in the community and are rising stars within their organizations. The PLN is dedicated to providing the next generation of leaders for the Dan Beard Council. The group strives to provide mentorship to the Boy Scouts and in turn benefit from top-down mentorship from the Dan Beard Council Board. The three pillars of the group Service, Leadership, and Ethics drive the activities of the group. Activities of the group include scout mentorship through programs with Scouts and business roundtable and networking events with local business leaders.
