On behalf of the Dan Beard Council, we are happy to announce the formation of the Professional Leadership Network. On July 31, 2010, the Professional Leadership Network officially launched and has developed into one of the regions premier professional organizations.

The Professional Leadership Network is an exclusive group of professionals that are engaged in the community and are rising stars within their organizations. The PLN is dedicated to providing the next generation of leaders for the Dan Beard Council. The group strives to provide mentorship to the Boy Scouts and in turn benefit from top-down mentorship from the Dan Beard Council Board. The three pillars of the group **Service**, **Leadership**, and **Ethics** drive the activities of the group. Activities of the group include scout mentorship through programs with Scouts and business roundtable and networking events with local business leaders.
