Youth safety is the number one concern of the Boy Scouts of America. The BSA places the greatest importance on creating the most secure environment possible for our youth members. To maintain such an environment, the BSA developed numerous procedural and leadership selection policies and provides parents and leaders with resources for the Cub Scout, Boy Scout, and Venturing programs.

New leaders are required to take Youth Protection Training before they submit their application for registration. The certificate of completion for this training must be submitted at the time application is made and before volunteer service with youth begins. Youth Protection Training must be taken every two years. If a volunteer's Youth Protection Training record is not current at the time of recharter, the volunteer will not be reregistered.

What These Requirements Mean For Your Unit

Registered leaders are adults who have submitted an adult leader application and hold any position in Scouting, including district and council positions.

- In order for a new adult to be registered, they must submit a certificate of completion along with an adult leader application.
- Leaders changing positions within Scouting do not need to submit a certificate as long as their records show current trained status (within the last 2 years).
- If a leader's registration does not show current trained status, the registration will be dropped when the unit recharter. This could put the unit at risk of dropping if the registered leader is in a required position.

How to Get Trained

Youth Protection Training
