CAMPING GUIDE

WHERE TO GO

The where to go camping guide has been put together by the Order of the Arrow and the Outdoor Program Committee to give a list of places units can go for various activities. It contains a list of Camps, parks, and other facilities available within a reasonable distance. There are roughly 200 locations listed. Our hope is that you will use this guide as a reference as you research and plan your upcoming camping and hiking trips and other activities for your unit.

Updated June 2018

How to use this guide:

The list is alphabetical, and each one contains at least one means of contact info. Below the contact info section is a website link, followed by if it has hiking trails, and last is the list of things the location has to offer. There will usually be two locations listed per page, with the document being 100 pages in length.

Contact us:

If you have any additions or corrections, please email camping@danbeard.org with "Where to Go Camping Guide" in the title. We would like to know if you are using this and we want to continue to add information that is useful to you!

How to plan a campout:

The Adventure Plan (TAP) is a National resource to help units plan and execute a great camping experience for youth. It includes the following

- Ideas for outings / activities
 - Budgets / financial worksheets
 - Travel options / reservations & permits
 - Examples including timetables, duty rosters, and more
 - Equipment lists
 - Health and Safety information
 - List of historic trails
- And more!

It has 52 steps, but don't let that deter you from using this tool. Experienced Scouters can jump around in the steps easily to find just the content that is relevant to them at the time.

Hiking Trails: 43 Miles of Trails, link to [map](#)

Additional Information:

- 1,300 foot public beach and swimming area
- The park's nature center houses interesting displays of the cultural and natural history of the area
- Naturalist programs are offered year round
- The pioneer village features 15 historic buildings depicting life in the early 1800s
- 283 Campsites, Cabins, 11 reservable shelters
- Mountain Biking Trails – 3.5 miles east, 16 miles difficult – Generally, not a good location to take scouts mountain biking. John Bryan is a great location!\

Review – This could be a decent place for an introductory hike. The terrain is rolling which will challenge beginners and interesting enough to keep others occupied. There is lots of space for fishing. I generally find the area crowded in the summer and prefer smaller, more isolated places to camp.
