

UNIT CONNECTOR

DAN BEARD COUNCIL BSA

October 2024

The attached set of tables is a tool to enable Cub Packs and Scout Troops to identify nearby units. It is expected that this data will further enhance the ability of:

- Cub Packs to communicate with nearby Troops to enable AOL's to transition to Scouting and nearby Scout Troops;
- Scout Troops to communicate with nearby Packs to facilitate recruiting; and
- Both Troops and Packs to communicate with each other to enable joint activities.

Some comments on the data herein:

- Unit Chartering organization is sourced from Dan Beard Council data. Dan Beard "Outreach" units are not included in the data.
- Unit Location is sourced from the "Be A Scout" website. If the unit is not listed on "Be A Scout", then location is presumed to be the location of the charter organization, as given in Google.
- Contact is sourced from "Be A Scout", provided that the contact is also listed as a "Key 3" in Dan Beard Council records. If no contact was provided in "Be A Scout", the Unit Leader was listed, as shown in Dan Beard Council records
- Nearby Units are defined as those in the same or adjacent zip codes. In most cases, these are within the same District. For units that may reside on the edge of a District, units in adjacent Districts were also given.
- If a Unit listed under "Nearby Packs" or "Nearby Troops" is shown in bold, that indicates that the Unit is "embedded" (i.e., shares the same Charter Organization) as the corresponding Troop or Pack in that row.
- Female Scout Troops are labeled with and "(F)" after the unit number.
- All data is as of October 2024. If there are errors in the data, please first ensure the data is correct in both "Be A Scout" and Council records, and then notify stevecammarn@gmail.com.

Steve Cammarn
Advancement Committee Chair
